TRANSMITTAL LETTER

PCT Legal Office  
Assistant Commissioner for Patents  
Box PCT  
Washington, D.C. 20231

Sir:

Transmitted herewith is a Renewed Petition Under 37 CFR 1.47(a), a Petition for Extension of Time, a Declaration of Dr. Stephanie J. Pilkington, Ph.D. with Exhibits, Declaration of Richard Garraway with Exhibits, a check for \$410.00, a Certificate of Mailing Via Express Mail and a return receipt postcard in response to the Decision on Petition Under 37 CFR 1.47(a) dated January 10, 2003, in the above-identified patent application.

The Commissioner is hereby authorized to charge any fees listed in 37 CFR 1.16 and 1.17 which may be required by this paper or credit any overpayment to Deposit Account No. 08-1265.

Respectfully submitted,

NIKOLAI & MERSEREAU, P.A.

**PETITION FOR EXTENSION OF TIME**

PCT Legal Office  
Assistant Commissioner for Patents  
Box PCT  
Washington, D.C. 20231

Sir:

Applicant hereby petitions the Commissioner for a two-month extension of time to respond to the Decision on Petition Under 37 CFR 1.47(a) dated January 10, 2003, in the above-captioned patent application. A Renewed Petition Under 37 CFR 1.47(a) in the above-referenced patent application is enclosed.

A check in the amount of \$410.00 is enclosed to cover the extension fees.

The Commissioner is hereby authorized to charge any additional fees under 37 CFR 1.16 and 1.17 which may be required by this paper to Deposit Account No. 08-1265.

Respectfully submitted,

**RENEWED PETITION UNDER 37 CFR 1.47(a)**

Hon. Commissioner of Patents and Trademarks

Washington, D.C. 20231

Sir:

This Petition is submitted in order to allow filing when some of the inventors refuse to sign a Declaration. The required fee of \$130.00 under 37 CFR 1.17(i) is also being submitted herewith.

The subject application was filed with an unsigned Declaration on February 18, 2002 in the names of four inventors, as follows: James O. Dolly, Gregory A. O'Sullivan, Nadiem Mohammed and Patrick G. Foran.

Of the four inventors, only one inventor, Gregory A. O'Sullivan, has to date signed a Declaration, Power of Attorney and Petition. A copy of that document is attached hereto as Exhibit "A". As attested by the additional facts enumerated below, the other three inventors have to date refused to sign, notwithstanding

diligent efforts to obtain the signatures by employees of the Assignee, Imperial College Innovations Limited, whose address is Sherfield Building, Imperial College, London SW7 2AZ, (GB), an affiliate of the employer of the three non-signing inventors, the Imperial College of Science, Technology and Medicine, whose address is London SW7 2AY.

This Petition is submitted on behalf of the signing inventor, Gregory A. O'Sullivan, and the three non-signing inventors, James O. Dolly, Nadiem Mohammed and Patrick G. Foran, requesting that Gregory A. O'Sullivan be enabled to make the application in the name of all four inventors. Such action is believed necessary in order to preserve the rights of all of the inventors inasmuch as if it is decided otherwise, the rights of the inventors to obtain patent protection in the United States of America will be irretrievably lost. Any benefit ensuing to the Assignee will also be lost.

The other pertinent facts surrounding the non-signing by the above-three inventors are set forth below.

1. A subject National phase application was filed by the undersigned attorney in the U.S. Patent and Trademark Office on February 18, 2002 pursuant to being engaged by and in accordance with instructions received from the United Kingdom firm of Eric Potter Clarkson, Park View House, 58 The Ropewalk, Nottingham NG1 5DD, United Kingdom, who represent the Imperial College Innovations Limited. The application included an unsigned Declaration, Power of Attorney and Petition.

2. A Notification of Missing Requirements Under 35 USC 371 in the United States Designated Elected/Office (DO/EO/US) was mailed on April 25, 2002 requiring, *inter alia*, a signed Oath or Declaration.

3. A Supplemental Declaration, Power of Attorney and Petition was sent by the undersigned attorney to the above-mentioned firm of Eric Potter Clarkson, who, as indicated, represent the Imperial College Innovations Limited, the Assignee of this subject invention, on April 30, 2002 for attending to obtaining the signatures of the inventors.

4. Additional facts have been supplied in a Declaration made by Dr. Stephanie J. Pilkington, Ph.D., of the Eric Potter Clarkson firm attached to this Petition.

5. A Declaration of Richard Garraway, which lists facts directed to the efforts of Imperial College Innovations Limited to obtain the signatures of the remaining inventors, is also attached to this Petition. A further exhibit to that Declaration has been received in the form of an e-mail, which is Oliver Dolly's reply of August 15, 2002 to Dr. Garraway, is attached as Exhibit Garraway "C".

The latest addresses of the non-signing inventors provided by the Imperial College Innovations Limited are as follows:

Oliver Dolly: 7 Buckland Road, Cheam, Surrey, SM2 7LP, United Kingdom

Nadiem Mohammed: 25D Foxley Road, Oval, London, SW9 6EX, United Kingdom

Patrick Foran: 113 Totteridge House, Yelverton Road, London, SW11 3QH, United Kingdom

It is believed apparent from the above that indeed a diligent effort was made to obtain the signatures of all inventors and that such inventors were possessed of all necessary documents and were fully informed and given ample opportunity to join in making the application.

Charles G. Mersereau, the undersigned attorney, Reg. No. 26,205, is a registered attorney of record with full authority to sign this Petition on behalf of Gregory A. O'Sullivan.

He hereby declares that all statements herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code and that such willful and false statements may jeopardize the validity of this application or any patent issued thereon.

Accordingly, in view of the above facts, the signing inventor seeks the right to make the application on his behalf and on behalf

of the three non-signing inventors and the granting of this  
Petition is respectfully requested.

Respectfully submitted,

DECLARATION OF RICHARD GARRAWAY

Hon. Commissioner of Patents and Trademarks

Washington, D.C. 20231

Sir:

I am Richard Garraway. I am an employee of the Assignee of the subject patent application, Imperial College Innovations Limited, whose address is Sherfield Building, Imperial College, London SW7 2AZ, (GB), an affiliate of the employer of the three non-signing inventors, the Imperial College of Science, Technology and Medicine, whose address is London SW7 2AY.

As a part of my duties as an employee of Imperial College Innovations Limited, I have been handling matters associated with the subject patent application in house, including those involving direct contact with the inventors such as providing application documents and obtaining signatures of the inventors on documents related to the subject patent application.

It is within my personal knowledge that in the course of attempting to obtain a signed Declaration, Power of Attorney and

Received at: 17h 19m, 10/4/2003

IMPERIAL INNOVATIONS

No.0710 P. 3

Petition for the corresponding United States application, each of the four inventors, Gregory A. O'Sullivan, James O. Dolly, Nadiem Mohammed and Patrick G. Foran, have been presented with at least one complete copy of the patent application for his records and, with the exception of Gregory A. O'Sullivan, on more than one occasion, a copy of a Declaration, Power of Attorney and Petition to be signed.

I began work on the case in August 2002 and can attest to the following facts:

Monday, August 12, 2002 - New copies of documents requiring signatures arrived at Imperial College Innovations Limited.

Monday, August 12, 2002 - Imperial College Innovations Limited request to Patrick Foran for signature (email and internal mail).

Monday, August 14, 2002 - Imperial College Innovations Limited request to Faculty for contact details of Nadiem Mohammed (email)

Monday, August 12, 2002 - Imperial College Innovations Limited email to Oliver Dolly requesting signature on Power of Attorney - documents faxed to Oliver Dolly.

Thursday, August 15, 2002 - Oliver Dolly's reply, "I will be happy to sign the forwarded document after it has the signatures of the other three co-inventors".

Thursday, August 15, 2002 - Ava Yeo (Faculty Administrator) "Dr. Mohammed is presently not on Imperial College Innovations Limited payroll... you may wish to contact him at his home address... if he wishes to respond he may but we cannot ask him to". Imperial College Innovations Limited later receive a telephone call from Ava Yeo - Patrick Foran is unhappy about being contacted for his signature.

Thursday, August 22, 2002 - Telephone call from Ava Yeo - has talked to the inventors - still unwilling to sign.

Friday, September 6, 2002 - Meeting in faculty between representatives of Imperial College Innovations Limited and Ava Yeo - inventors still unwilling to sign.

Received at: 17h 19m, 10/4/2003

10.Apr. 2003 16:29

IMPERIAL INNOVATIONS

No.0710 P. 4

Friday, September 6, 2002 - Imperial College Innovations Limited drafts letters of explanation and sends to Oliver Dolly and to Ava Yeo for distribution to Patrick Foran and Nadiem Mohammed.

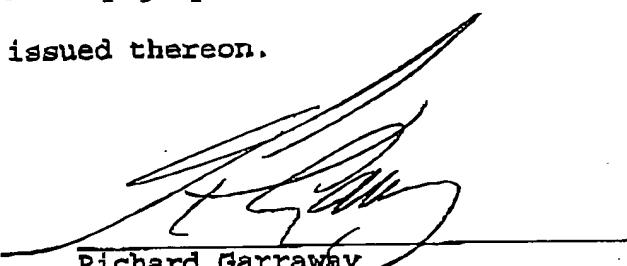

Tuesday, September 17, 2002 - Nadiem Mohammed calls Imperial College Innovations Limited: - Nadiem Mohammed and Patrick Foran would like to come in to discuss the situation - appointment is made for Friday, September 20, 2002.

Friday, September 20, 2002 - Meeting between Imperial College Innovations Limited and Nadiem Mohammed and Patrick Foran - still unwilling to sign the documents.

Monday, February 10, 2003 - Patrick G. Foran and Nadiem Mohammed were contacted by e-mail and asked to reconsider signing the Power of Attorney document. A copy of that e-mail is attached as Exhibit "A".

Tuesday, February 18, 2003 - Patrick G. Foran and Nadiem Mohammed were sent additional copies of the specification to make doubly sure they had copies in their possession. See e-mail attached as Exhibit "B".

I hereby declare that all statements herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both, under section 1001 of Title 18 of the United States Code and that such willful and false statements may jeopardize the validity of this application or any patent issued thereon.

Garraway, Richard

From: Garraway, Richard  
Sent: 10 February 2003 16:05  
To: p.foran; Mohammed, Nadiem  
Cc: Yeo, A; Kleyn, Dominique; Garraway, Richard  
Subject: RE: IP rights and Neurotherapeutics.

Dear Patrick and Paddy,

Apologies for yet another long interlude between communications. This again has been due to the constantly changing picture with regards to Neurotherapies and Allergan and the still unresolved business with Oliver.

With regards to Neurotherapies, the company was never fully formed and it looks as though going forward any entity that has been formed thus far will be dissolved. In this case ownership of the intellectual property will return to Imperial College (as your employer, the College has rights over any IP you create). This should hopefully allay your concerns over the interference of Neurotherapies over your further work in this field.

With this in mind, I would ask you once again if you would re-consider signing the power-of-attorney documents that we discussed previously. You also asked whether you would "...be notified of all future actions relating to the filing by the US agents." My understanding of this, having conferred with the UK agent is that this would not necessarily be the case.

I would remind you that if you are creating / publishing new data then you might want to pass it through us as well - it could result in a further patent in your name(s). This picks up the point in your last paragraph.

Discussions / negotiations are still in progress with Allergan. With regards to your comments about the shipping of the requested materials, Innovations was not notified that anything further had been shipped, either by the Faculty, the DTI (who I believe had imposed an embargo) or by Allergan. We have still not received confirmation from Allergan that this milestone was satisfactorily achieved. I shall investigate this further.

Kind regards

RG

Thank you Stephanie,  
Patrick Foran and Nadiem Mohammed have been sent copies of the specification that you left with us recently.  
I am guessing that Dominique has left her "out-of-office" replies on until she has dealt with last week's email, but she is definitely in. I believe that she spoke to Oliver Dolly yesterday evening.

DECLARATION OF DR. STEPHANIE J. PILKINGTON, Ph.D.

Hon. Commissioner of Patents and Trademarks

Washington, D.C. 20231

Sir:

I am Dr. Stephanie J. Pilkington. I am an employee of the law firm, Eric Potter Clarkson whose address is Park View House, 58 The Ropewalk, Nottingham NG1 5DD, UK.

As part of my duties at Eric Potter Clarkson, I have been handling matters associated with the subject patent application including the coordination of the National Phase application in the U.S.A. In connection with these duties, I have endeavored to obtain the signature of the inventors on a Declaration, Power of Attorney and Petition for the above-mentioned corresponding U.S. application.

To the best of my knowledge and belief, each of the inventors, Gregory A. O'Sullivan, James O. Dolly, Nadiem Mohammed and Patrick G. Foran, have and have had in their possession copies of the

entire specification at least since the filing of the corresponding PCT application.

With respect to the present efforts to obtain the signatures of the subject inventors on the Declaration, Power of Attorney and Petition for the corresponding U.S. application, I can supply the additional facts based on my first-hand knowledge:

May 8, 2002 - Declaration documents were sent to Imperial College Innovations Limited ("Innovations"). Letter attached as Exhibit "A".

May 20, 2002 - A Declaration signed by the inventor Gregory O'Sullivan was received by Eric Potter Clarkson.

June 28, 2002 and July 29, 2002 - Copies were sent directly by Eric Potter Clarkson to the inventors. No response was received. Letters attached as Exhibits "B" and "C".

July 8, 2002 - A reminder was sent to Innovations. Innovations asked Eric Potter Clarkson to send copies of the Declaration documents directly to the inventors for signature. Attached as Exhibit "D".

July 29, 2002 - See e-mail from Jemima Richards to Stephanie Pilkington in response as attached Exhibit "E".

August 8, 2002 - A further copy of the documents was sent by Eric Potter Clarkson to Innovations. Letter attached as Exhibit "F".

January 29, 2003 - Further copies of the specification for all three non-signing inventors were supplied to Richard Garraway.

I hereby declare that all statements herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the

like so made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code and that such willful and false statements may jeopardize the validity of this application or any patent issued thereon.

Stephanie J. Pilkington, Ph.D.

Subject: US 60/149993; Botulism; ICOY/P23294US

Dear Mima

We still have not received the required documents from Oliver Dolly, Patrick Foran and Nadiem Mohammed. We are sending them a still further copy of the documents. Increasingly large extension fees are becoming due, and the application will lapse if the documents are not filed.

Please let me know if the inventors are actively refusing to sign the documents or if you aware of any other reason why they have not been signed.

Best wishes

Stephanie

Please find enclosed Powers of Attorneys for Godfrey Lisk and Frederic Meunier (ICOY/P26450PC). Please also find enclosed the Declaration Power of Attorney (ICOY/P23294US) for signature by James Dolly, Nadiem Mohammed and Patrick Foran. Gregory O'Sullivan has signed and returned his part of the Declaration.

With Compliments

Stephanie J Pilkington PhD
